

Pablo has been struggling to keep track of all his visa gift cards. He has been spending his own money instead of using his gift cards because he doesn't know how much is on his gift cards.

Pablo's producer is worried about his spending habits and wants Pablo to use his gift cards so that he can spend his money on more important things.

Pablo's producer downloads the gift card management app on Pablo's phone and makes an account for Pablo.

Pablo's producer shows Pablo the new app and what it can do for him, and shows him how to put his gift cards in the app.

Pablo gets to work and puts all his cards into the app.

Pablo is ecstatic to know the balance of each gift card he owns and no longer spends his own money on erratic purchases.

Garfield has recently been losing all of his Starbucks and Dunkin gift cards

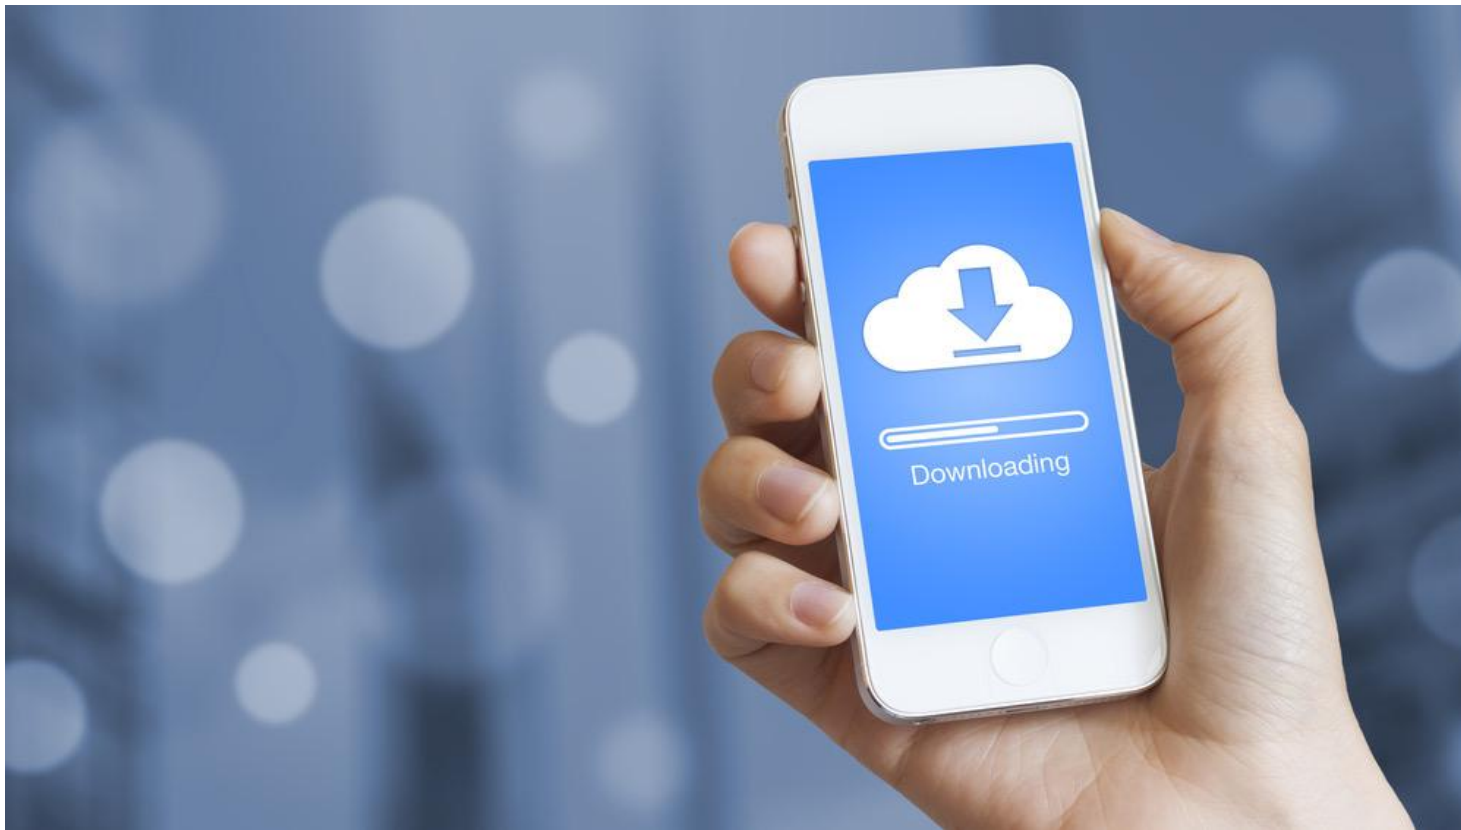

He has been brewing his coffee at home so he could save more money

Garfield found out from a coworker that there is an app that allows you to store your gift cards on your phone

Garfield downloads the app and puts all of his coffee gift cards on it

Garfield found out that he can also use and collect rewards on the app without having to have the card

Garfield has been much happier teaching his band kids now that he can have good coffee rather than his home brewed coffee
